

National Numeracy Day 15th May 2019

Mission:

To raise awareness of the importance of numbers in everyone's lives and encourage action to increase numeracy levels across the UK.

Many of us say we're not numbers people. But numbers play a big part in all our lives. National Numeracy Day is about helping everyone in the UK to take action to build the confidence and skills to use numbers effectively.

Overarching key messages

1

National Numeracy Day is about empowering everyone to build their confidence and skills to use numbers in everyday life

2

We know that poor numeracy skills affect individuals, employers and the economy overall

3

We will encourage everyone across the UK who needs it to take the first step towards improving their numeracy by taking the National Numeracy Challenge

4

Together we can ensure everyone has the skills to use numbers well, increasing confidence in individuals, communities, businesses and the UK economy as a whole

“We are all numbers people”

We are asking all parents/carers and members of our community to take part in our numeracy day challenge. It only takes a few minutes to get started, and from there, National Numeracy has tailored, easy to use tools that can help you sharpen up the areas you need most help with.

By taking part in this online challenge, using the unique web link below you will be entered into a prize draw for a £50 Asda Voucher. All entries must be over 18 years of age.
