

Evidence Gathering Assessment Calendar

There are no SQA exams this year and therefore no study leave. This year your teachers will conduct mini assessments from April to June in class time to gather evidence on your abilities. This evidence along with any practical work you have completed will help us determine your provisional grade. These grades will appear on your SQA certificate in August.

To help you plan your study timetable during the Easter holidays the calendar below shows you when your teachers plan to gather evidence from you. Please note the sessions are planned by class and level so please check with your teacher which sessions are yours.
